Reply requested when convenient

Good afternoon,

My name is Julian P. Davis. I am an Executive Assistant to Commissioner George Little. Currently, I have been designated as team leader in revising our protocol for electrocution and lethal injection. I was informed by our AG's Office and our department's General Counsel to contact you for your expertise regarding our lethal injection protocol. Since the Governor's Executive Order last month, our research team has made many revisions regarding the lethal injection protocol. One of those revisions included our drug administration sequence.

Attached is a copy of our revised lethal injection drug sequence. Please review and share your comments. If you need additional information, please let me know and I will get it to you immediately. Thank you for assisting our department and I look forward to hearing from you.

Julian Davis
